

ALUFRAME

Aluframe creates interior

Aluframe - freedom & design

Aluframe is a creative and professional interior design tool. It can be used to create advertising walls in stores, to brand office space and even to provide an original flare when bringing privacy to your home. This light aluminium frame with elegant surface finish is perfect for interchangeable graphics, photos or advertising printed on fabric. These help deliver acoustic dampening to the space and can even be backlit with energy-efficient LED lights in order to increase the attractiveness of the graphics.

- | Advertising panels and walls
- | Graphic surfaces
- | Photo walls
- | Decorative images
- | Multimedia walls

| Aluframe remains and only the graphics change to match the latest fashion and style

| What is OUT quickly becomes IN

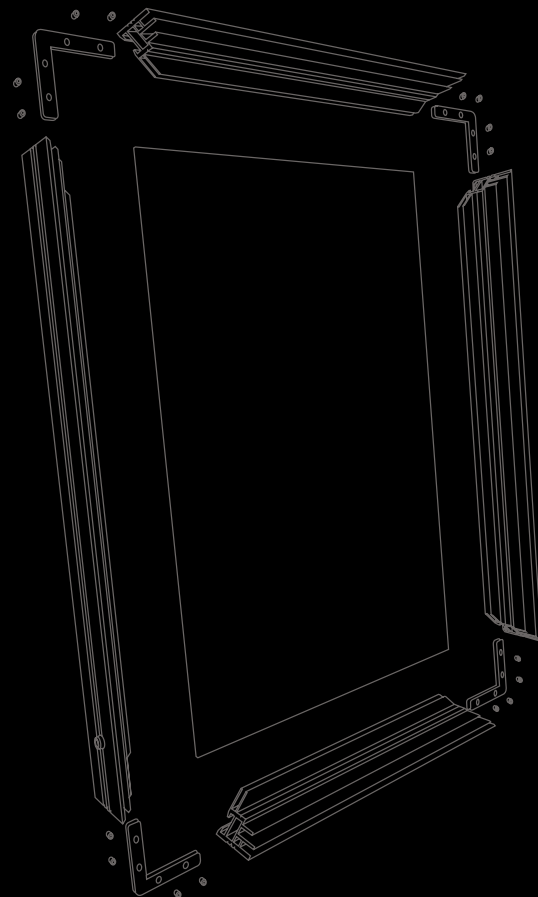

| Support for a new brand in a matter of minutes
